"I work with porcelain to create delicate looking hand built forms/vessels. The theme of deconstruction, coupled with inspiration taken from fabric materiality and the unpredictable nature of porcelain, enables this collection to question interactions within the interior environment. Varying reactions provoke questions: "How is it they look soft?", "Why are they distorted?" and "Has the process gone wrong?" Newer work bridges the gap between decorative aesthetics and functional pieces."

"The image shown here is untitled as it is up to the viewer to connect with it and give it an identity, which has emerged via that relationship. In this way it will assume many different ways of being seen."

Self-Portrait

As humans, we are more than skin deep, we are complex beings that exist with intelligence, emotion, aspirations, inspirations and much more. Understanding our human condition plays a vital role in developing my portraits. I am not trying to interpret my physical appearance. I am looking for new ways to develop self-portraiture, to view the inner self. I use blind drawing/painting techniques in my process. Suzette Pratten explained, "This is our opportunity not only to extend warm hospitality to new visitors in a festive atmosphere, but to thank our many gallery friends for their support during the past year."

She added, "Christmas at CRiC' just gets better every year! Our new space, the CRiC Studio will be festooned with 'Gifts Galore' from 28 November and the retail area will offer a selection of local delicacies and unusual gifts. CRiC's popular tree decorating competition in the Centre returns on the evening of 1st December when Crickhowell puts its best foot forward with late night shopping. Don't miss it! This an ideal opportunity not only to do a bit of shopping, but to soak up the town's spirit of festivity."

### Paul Burgess

*"Hats off yet again to I-Pixel - I had to get some prints done but Craig was so busy he couldn't see me until 5pm, which was obviously when he should have been going home. He spent over one and a half hours going through everything with a fine tooth comb and wouldn't stop until it was all perfect. It's a real pleasure to work with someone who is so conscientious about what they do and reassuring that my work is in such professional hands."*

### Tracey-Anne Sitch

*"I've been going to I-Pixel since 2007 and will continue to take my watercolours for capture because they always deliver - fast, efficient, friendly service and beautiful prints, which I'm hard pressed to tell apart from my originals"*

### Lee Wright

*"Since using I-Pixel to produce fine art reproductions of my work I have been able to reach a wider audience, thus dramatically increasing my profile and the revenues of my art business. I have been incredibly impressed at the skill and determination of Craig in ensuring that the reproductions of my art always look as good, and often better, than the originals!"*

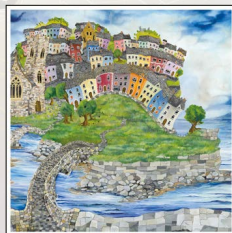

### David Day

*"I have used I-Pixel for many years. They have always been extremely helpful and have never let me down on urgent jobs. They are prepared to work closely with the artist, and the quality of the prints are incredible. My customers have regularly commented to me on how amazed they are with the printed versions of my work."*

### Goff Danter

*"I-Pixel have made a major contribution to the development of my reputation as a professional artist. Their commitment to providing the best possible service by understanding the needs of their customers has enabled me to reach a much larger audience, sooner than expected."*

### Jeremy Thomas

*"I-Pixel have been reproducing my work for many years and have helped me enormously. They have an attention to detail that is second to none, working tirelessly to ensure that the subtleties in colour are captured perfectly and the printed image is beautifully crisp and clear. They are always prompt and professional, but above all else, they are thoroughly nice guys. I'm always impressed by I-Pixel... thanks for all the hard work."*

*For over 10 years I-Pixel have been fortunate enough to have worked with a diverse range of both established and fledgling artists. Above you can see some of the testimonials given to us by just a small selection of them. At I-Pixel we specialise in the capture and reproduction of fine art, producing limited or open edition prints.
